APPENDIX: CO-CREATION PROCESS DETAILS	85

## WELCOME FROM THE STEERING COMMITTEE

This Early Learning Coordination Plan (which will be referred to as “the Coordination Plan” for the rest of the document) was brought to life by thousands of people from groups and communities across Washington state. From the beginning, the steering committee has been at the core of it all. Here, some of their voices welcome you to this exciting collaboration.

VISION**

## Printing

- Should receive a proof sometime this week
- It will take 15-22 days to print
- Hoping to have copies ready for distribution by end of October

## Translation

- We are working with our internal DCYF to have accessible Spanish and Somali versions of the document

## Distribution

- Please fill out the [survey](#)

- **Microsite**

- Mitsui Creative contracted to build ELCP Microsite
- Will have a temporary “Landing Page” with limited features
- Full website will be available in December

- **Logo and Branding**

- Initial logo work has begun
- Final logo expected after landing page is live

Glen and Arlene Mitsui

dura omni specie, "Tu autem

# Early Learning Coordination Plan – Quick Overview

Washington has many  
examples of innovative and  
impactful work.

What is missing?

... coordination and connection

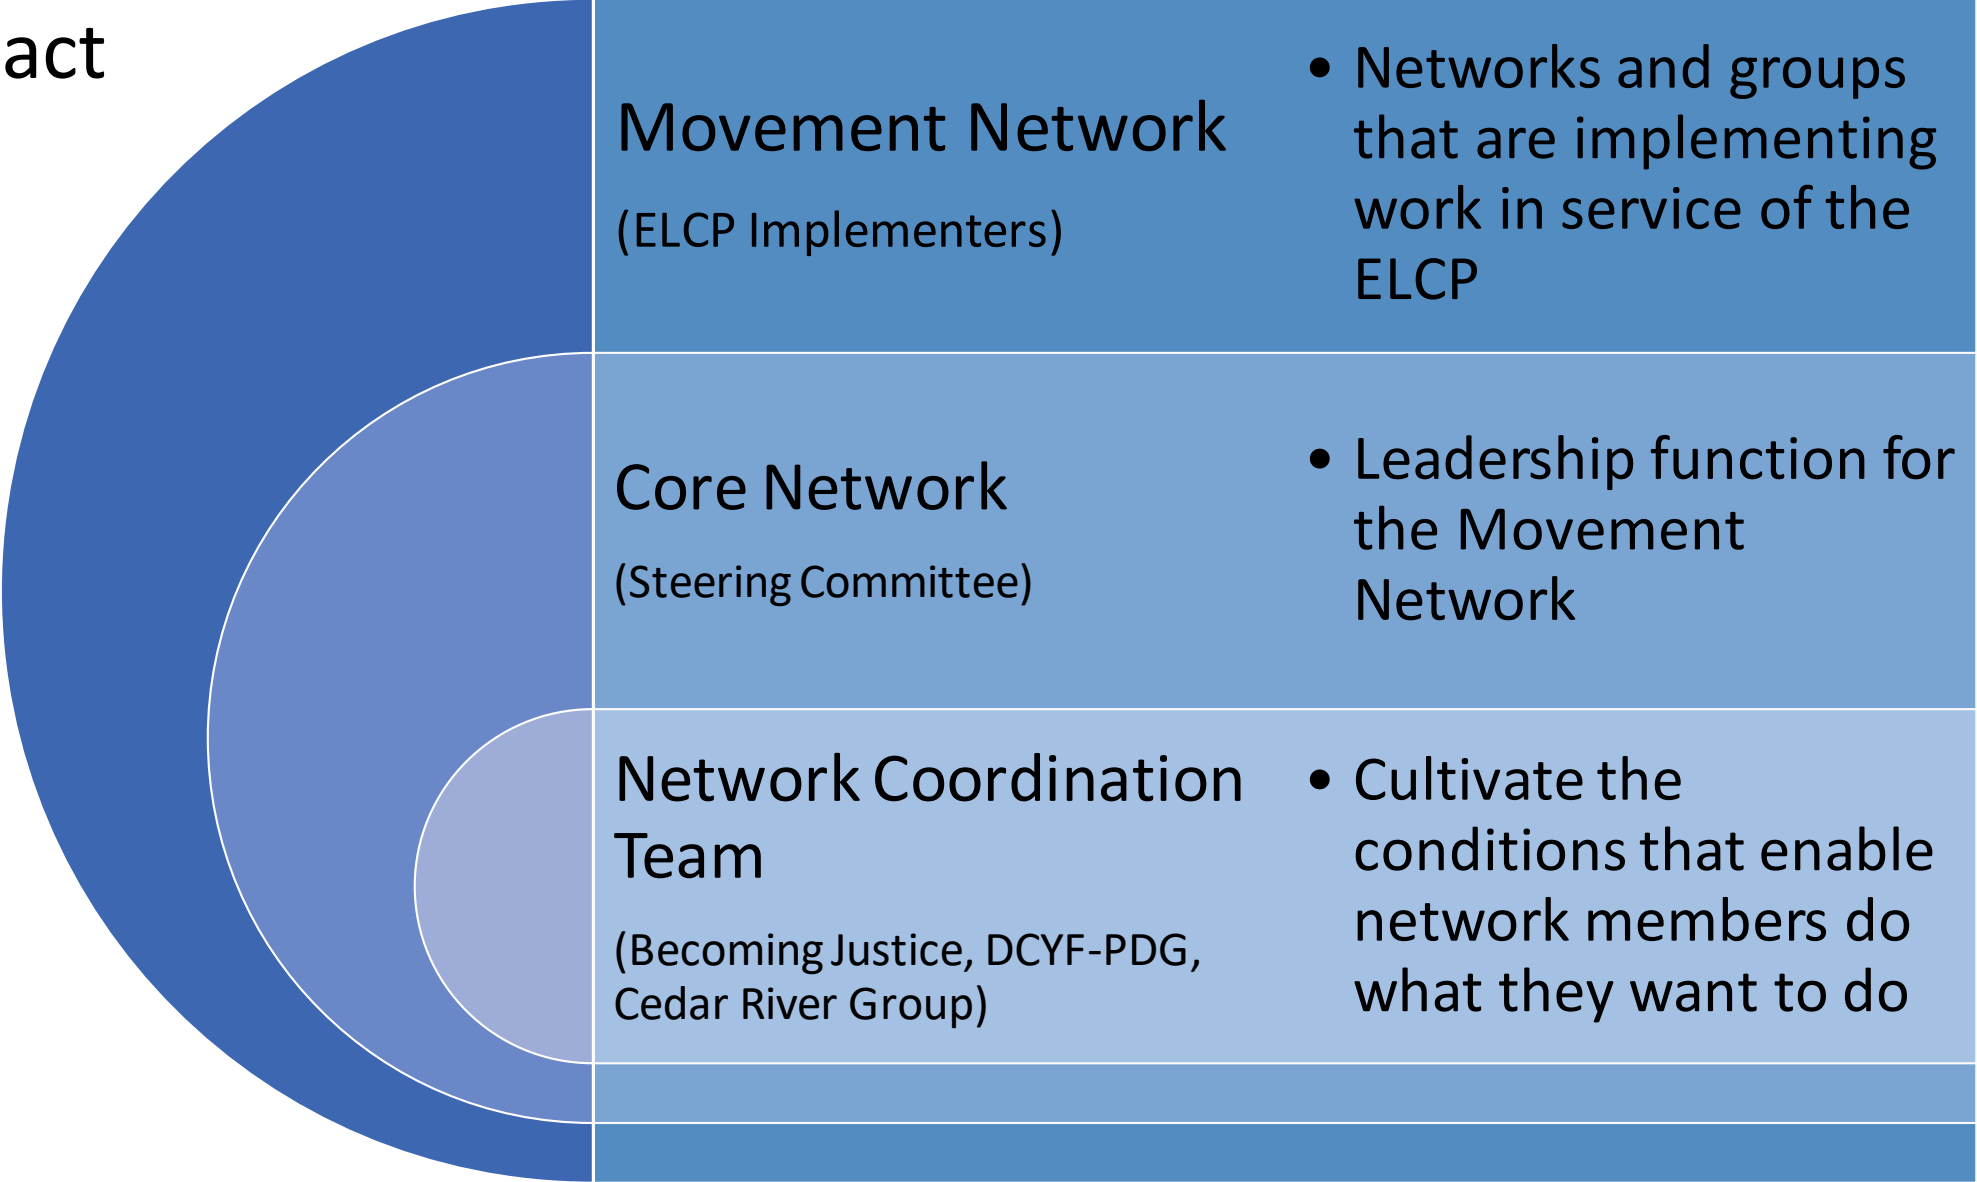

# Imagine creating a way to coordinate the Early Learning Coordination Plan where:

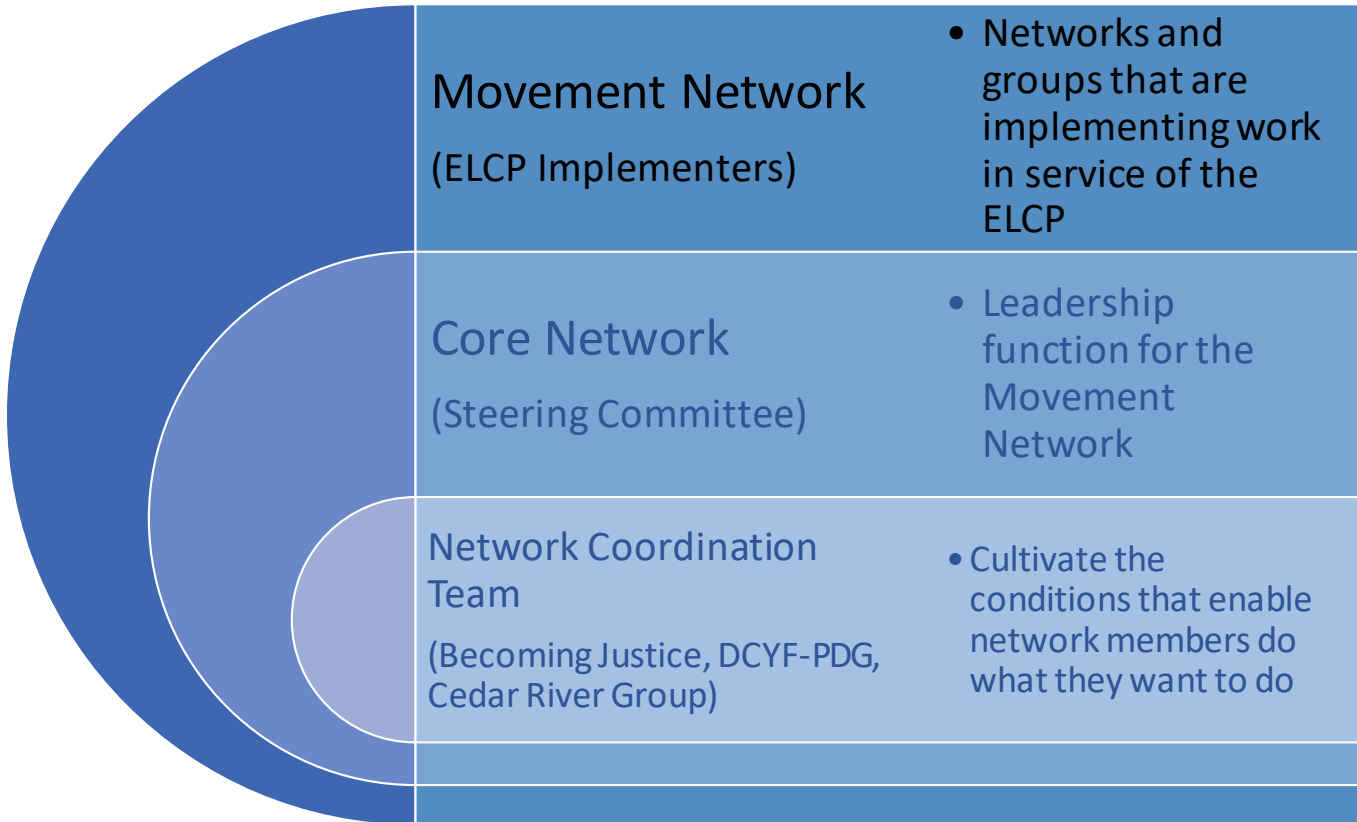

- All partners share a strong commitment to equity and creating an anti-racist culture
- There is collective commitment to co-designing with lived experts
- There is a shared language for our work
- There is shared power in accountability, strategy and decision-making processes
- Partners collect, share and use data together to inform our system
- Partners across the system meet frequently to share progress, make course corrections and develop strategy

# Recommendation:

## ELCP Impact Network

# Learning More Together: Movement Networks

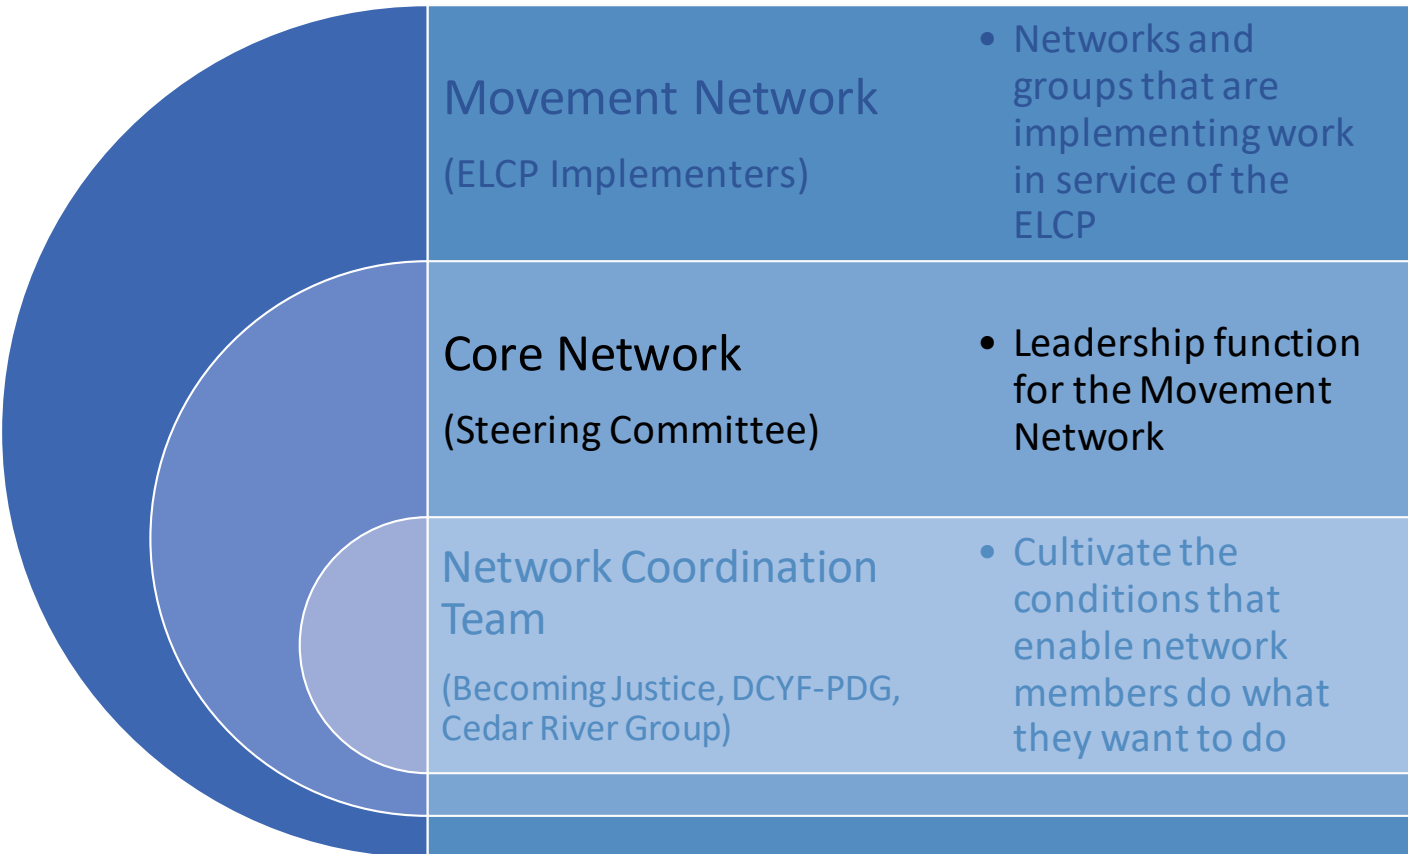

Connect the work of many other networks/initiatives together

Resembles a network-of-networks

Networks function semi-autonomously while sharing information and coordinating with one another on behalf of the ELCP and in alignment with the vision and values

# Learning More Together: Core Network

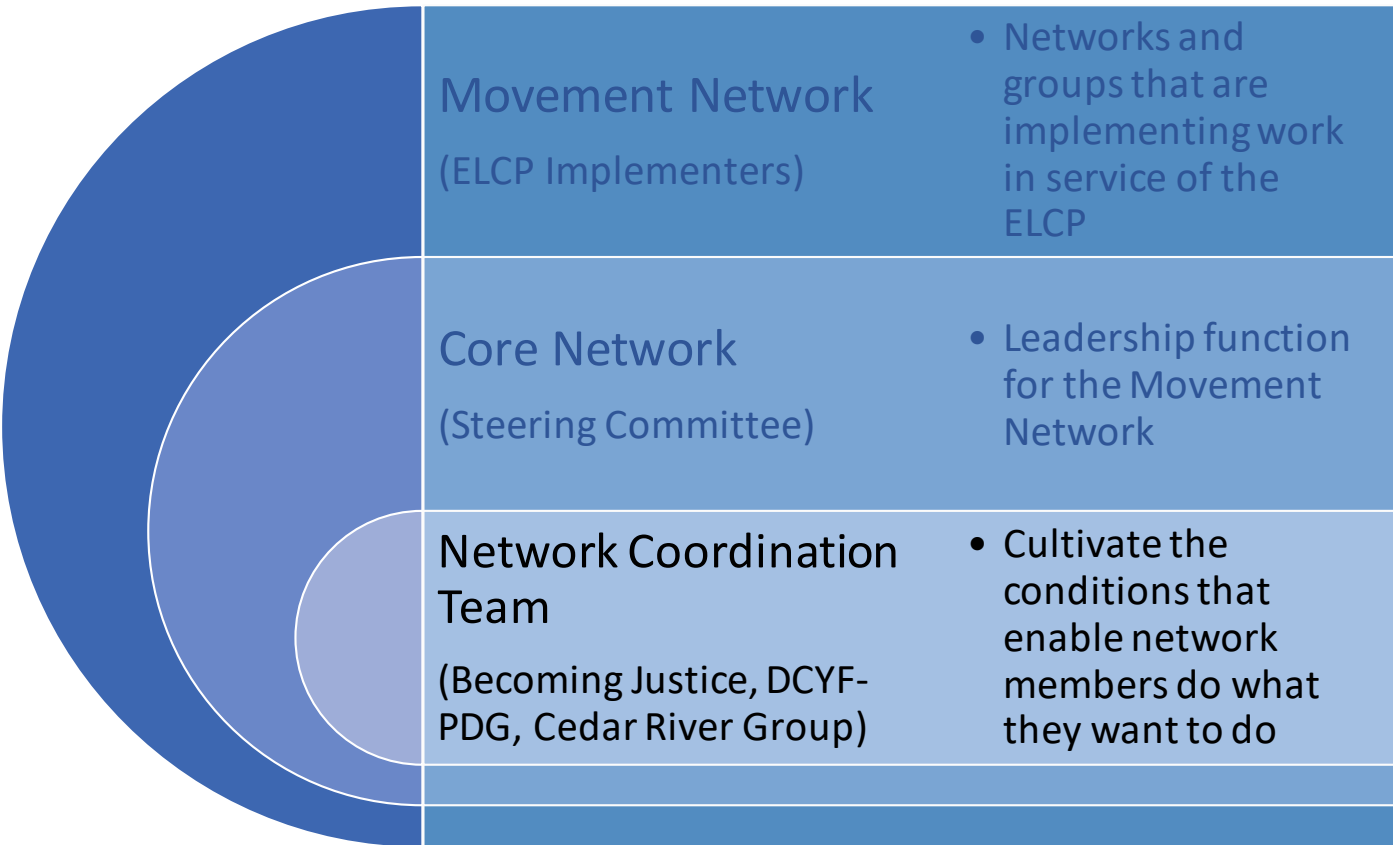

Serves in a leadership capacity to steward the larger whole

Wide-ranging roles that we will customize. Some possible examples are:

- Champion and lead anti-racist and inclusive work
- Strategic direction of ELCP work
- Represent the ELCP in public settings
- Advancing efforts to resource the network

# Learning More Together: Network Coordination Team

Small team with time & resources to maintain network operations

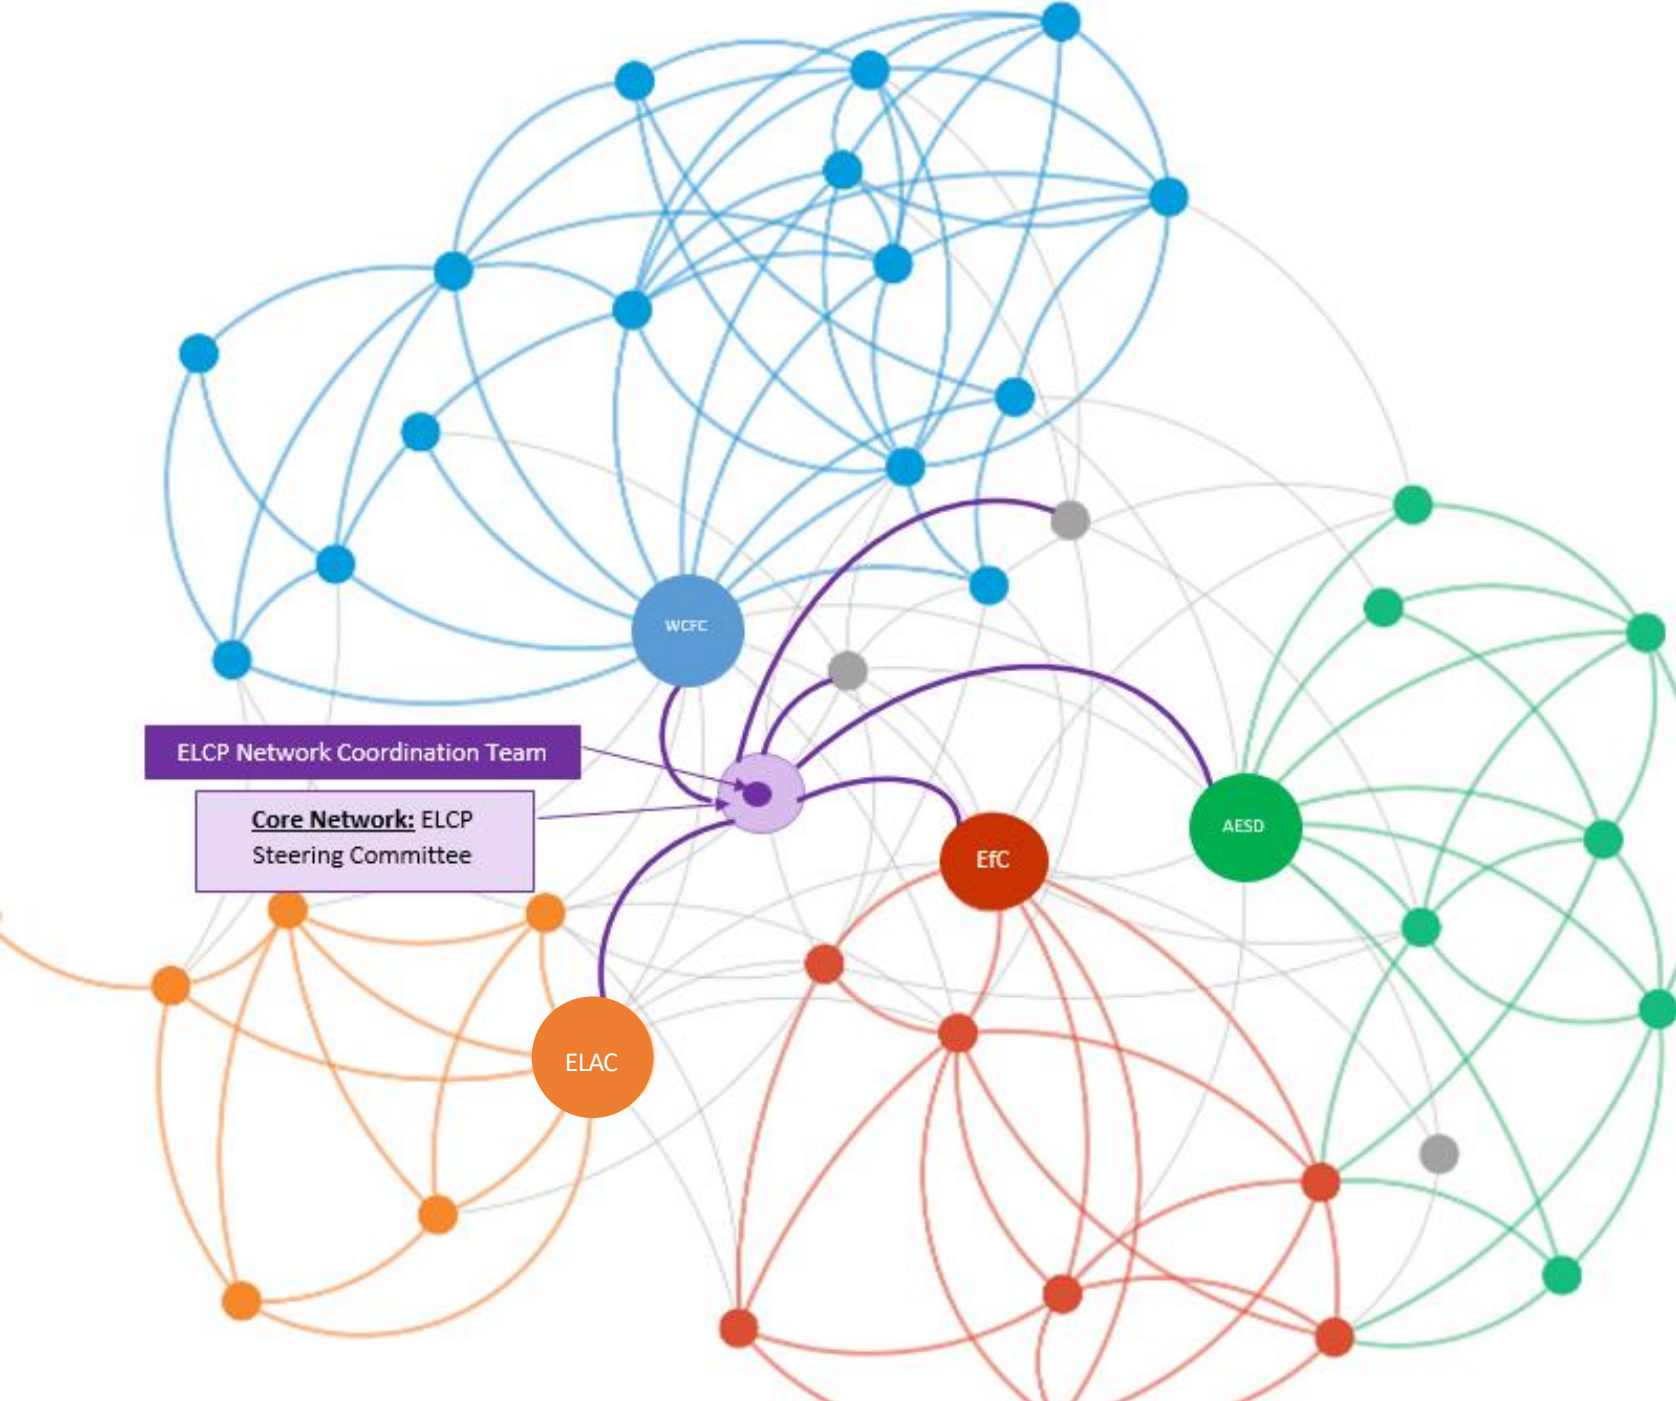

- Set up & maintain website
- Manage evaluation activities

Provides knowledge management

- Gathers resources & learnings from networks
- Curate & shares info. to ensure people have what they need to advance the work

# ELCP Impact Network

Shown with a few example organizations as the Movement Network

# Early Learning Coordination Plan – Quick Overview

# Thought Partnering

As a group:

- What do we need to be thinking about?
- What concerns are surfacing?
- What are the strengths?
